

Get the most out of
your furnace with

*"Some of the best training I
have had in my 25+ years as
a maintenance tech."*

*"Staff and facility are top
notch and very knowledgeable
in heat-treating processes."*

*"All of my questions that were
answered are going to be a big
help as we go through Nadcap
accreditation."*

What is Ipsen U?

A practical course for building and refreshing your knowledge of thermal processing equipment, Ipsen U addresses all levels of experience in a casual, open-forum environment that encourages attendees to ask questions about their equipment and processes.

Featuring a hands-on approach to learning, the class's modular format also allows participants to directly interact with several Ipsen experts and ask questions about their specific needs and concerns.

Who should attend Ipsen U?

Ipsen U courses address all levels of expertise including:

- Plant Managers
- Project Managers
- Engineers
- Operators
- Maintenance

Details

- Three-day course
- Class starts everyday at 8:30 a.m. and ends at 4:30 p.m.
- Breakfast and lunch are provided each day of the course
- Participants receive an iPad, Ipsen U certificate and an Ipsen shirt
- Reservations are required as class size is limited
- Attendees are responsible for transportation and hotel costs
- Reservations are due two weeks prior to start date

Topics include:

- Metallurgy
- Thermal Processes
- Brazing
- Troubleshooting
- Furnace Mechanics
- Hot Zone Design

And many more!
